# General Information

- The studio was established in Bozeman, Montana in 1989, and provides the regional musical community with high quality percussion instruments and accessories at a very competitive price.
- Please be aware that we are not a retail store and do not rent directly to the general public, but only to Businesses and other Organizations.
- Rental prices shown are based on local pick-up and return, and do not take into account delivery or extra travel out of the Bozeman area. Please call for additional information and cartage-shipping pricing if needed. Longer rentals (Multiple-Weeks, Monthly) also available.
- Most instruments come with stands/hardware where applicable. Mallets are provided for instruments which they are unique to (such as Tambourim, Gongs). Other mallets available by request.
- Organizations are required to add/carry a rider on their business insurance for any equipment that is rented and valued at over \$250.00
- Renters are expected to know the appropriate mallets/sticks/beaters for each instrument, along with the general care of percussion instruments so as to avoid damage. Renter assumes responsibility for the full cost of repair (or replacement) for any damage incurred.
